

CPP 130

48 x 40

Nestable industrial plastic pallet for automated conveyor systems

Technical Data

Dimensions* ¹	48.0 x 40.0 x 5.1 in	1219 x 1016 x 130 mm
Weight* ¹	ACM 20.0 lbs PE 17.5 lbs	ACM 9.0 kg PE 8.0 kg
Load capacities* ²		
Static	6200 lbs	2800 kg
Dynamic	1500 - 2600 lbs	700 - 1200 kg
Racking	—	—
Bottom support	12 feet	
Entry	4-way	
Safety rim	—	—
Nesting height	2.8 in	70 mm

*¹ The pallet dimensions and weight are variable. *² Guideline values are based both on experience and parts of test ISO 8611, which tests with evenly distributed loads at room temperature (20°C). Varying data may result from different conditions of usage. Your specific requirements can be identified upon request. *³ Minimum quantity required. - We reserve the right to change any of the stated information without prior notice.

Unique designed bottom support enables nestability and transportation within automated conveyor systems

Nestable CPP plastic pallets require less floor space when transported or stored in a warehouse.

Options

Material	Color
ACM, recycled material	black
PE, recycled material	black
PE, virgin material	grey

Individual marking*³
Custom-made color (only virgin material)*³

Features

- > Cost effective
- > Very light weight and low height
- > Easy and safe to handle
- > Reduces freight costs by volume:
25 pallets = 6 feet height
- > Maintenance-free
- > Resistant to insects, bacteria and fungi
- > Environmentally friendly product of 100% recycled plastic, completely recyclable

CPP Plastic Pallets

Export pallets

Our Send & Forget™ export pallets enable us to offer a solution to export-oriented companies which is both economically efficient and environmentally friendly. Increasingly integrated international commodity flows call for plastic pallets which provide a high added value to customers while meeting high environmental standards more than ever before.

Our export pallets are made using a spe-

cific recycled ACM material. They are characterized by their lightweight design and by their particularly advantageous price. Obviously, nobody would want to invest a high amount of money in load carriers especially when exporting goods.

Logistic pallets

Our logistic pallets are sturdy long-life storage aids which have stood the test in high-bay warehouses, automated convey-

ing and storage systems and in the entire field of distribution logistics. Achieving a high number of cycles is the key to cost efficiency in this area.

Depending on the needs of every application, CABKA logistics pallets are manufactured using either type-specific PE recycled material or virgin material. In most cases, our recycled plastic material will provide an alternative which is both economically efficient and environmentally sound.
